(54) PORTABLE TERMINAL

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a foldable portable terminal that is provided with an imaging camera, can transmit video and audio data and allows a user to monitor an image on a display device when the imaging camera picks up an image of the user itself and picks up an external object.

SOLUTION: A lid section 3 is foldable and turnable with respect to a case body 2 of the portable terminal and the display device 6 provided at the lid section 3 is turned in correspondence with an imaging state with respect to the imaging camera 11 fixed to a rear face or a side face of the case body 2 so as to allow the user to monitor an image in the portable terminal.
